The special features of this Company are its Tontine Investment and Semi-Tontine Investment Policy, and its Commercial Policy. It also issues annuities, and all forms of Life Policies.

The first two secure a large return for the money invested, while the latter yields maximum insurance for minimum outlay. Its Semi-Tontine Policies are Non-forfeitable after three annual premiums are paid.

During the period of life when insurance is specially needed, this plan places reliable life insurance within the reach of the masses at an estimated cost of about 50 per cent. of the ordinary life rates, its regular quarterly premiums being very moderate.

It is the best plan for those who want insurance only, and the easiest for agents to work.

This Company's Policies are printed in clear, large type, in plain, simple language, and are liberal in their conditions as it is possible to have them, consistent with safety and equity to the policy-holders generally.

Observe the following points, viz.:

(a) The Policies are indisputable after three years from date of issue.

(b) Travel without permit in any part of the world will not invalidate the Policy, which becomes subject to an extra premium only where an extra risk is incurred.

(c) Surrender values are allowed upon its ordinary and Semi-Tontine Policies after they have been in force three years, either by Paid-up Policies or in Cash; Loans are made on such Policies after being in force three years.

(d) The age of the insured will be admitted at any time by the Company on reasonable proof, but if not so admitted, any error in the age will not invalidate the Policy.

The Great North-Western Telegraph Company

Of Canada.

Operating the Lines of the Montreal and Dominion Telegraph Companies.

Miles of line, 34,000. Number of offices, 2,000.

Erastus Wiman, President. H. P. Dwight, General Manager.

Head Office, Toronto, Ont.

This Company is now working the lines of the Montreal and Dominion Telegraph Companies of Canada. At its commencement the Company's property and operations were confined entirely to the Province of Manitoba, but since then its scope and influence have been vastly extended. The ample provisions of the charter of the Company were made available for the purpose of consolidating the conflicting telegraph interests of the Dominion, which, through ruinous competition, had been seriously impaired. The low rate for telegraph tolls which prevailed for the two years previously had so weakened the power of the telegraph companies to pay interest on the capital invested, and at the same time maintain the property in an efficient condition, that the prospects seemed most serious for all persons interested in this kind of investment. An arrangement was, however, effected, by which the rival companies were combined under one management, resulting in the introduction of large economies on the one hand, and the establishment of a uniform rate of 25 cents for telegraph tolls on the other. Investors in telegraph property were thus assured of a fair return for their investment, and the public provided with a more efficient service.

This company has a close alliance with the Western Union Company, and thus secures for its customers prompt and easy communication with every point on this continent, to which the vast network of wires amounting to 450,000 miles owned by the Western Union Company extends. The various important inventions, secured by patents in most cases, which the Western Union Company now control, have also been placed at the disposal of, and will hereafter be used by this company.

The sending Money Orders by telegraph between the principal offices in Canada, and also between this country and the whole of the Money Transfer Offices of the Western Union Telegraph Company, has been in vogue for some time and greatly appreciated by the public.

Mr. H. P. Dwight, formerly Western Superintendent of the Montreal Telegraph Co., is the General Manager of the Company.

INTRODUCTORY.

The publishers take pleasure in presenting to their patrons this their fifth annual edition of the Toronto City Directory.

We have reason to congratulate ourselves on the large and steady increase of our population, and the acquisition of many new manufacturing and wholesale and retail business houses to our commercial interests.

With this edition we issue free to our subscribers a correct map of the City, arranged in such a manner as to furnish a ready reference to the location of any street, distances, etc.

We have this year a large increase in our list of names, finding by actual count 45,220, an increase over last year of 3,933, which, being multiplied by 3 (a minimum average), gives us an increase in population of some 11,799 or a total of 135,660.

Following are the number of names appearing in each year's publication for the last ten years:

Our Ales and "Extra Stout" are recommended by the Medical Faculty for purity of flavor and general excellence.

Our Porter is specially recommended for persons suffering from general debility or sleeplessness. Made from the best Bavarian hops and purest malt, it imparts a tone to the system, and gives strength and health where strong tonics and medicines fail. Try it once and be convinced. For sale by all grocers and liquor dealers.

Pay no money IN ADVANCE to Directory Canvassers. Our Canvassers are not authorized to collect in advance of publication of our books. See that our name (R. L. We are led to thus caution the public, as itinerant Directory Publishers procure orders by misrepresenting their works, and leading the public to believe they are subscribing to the regular Toronto City Directory.

DOMINION LINE
Royal Mail Steamships.

Sailing between Quebec and Liverpool in summer, and Portland, Me., Halifax and Liverpool in winter.

These steamers are all of the highest class, full powered, and Clyde built in water tight compartments, and are commanded by men of large experience and thoroughly acquainted with the route.

The salons, state rooms, music room, smoking room, and bath rooms, are amidships where but little motion is felt, and are handsomely and luxuriously furnished.

The route via the St. Lawrence is the most pleasant and comfortable for intending travellers, three days of it being spent in the comparatively smooth waters of the River and Gulf, with their magnificent scenery.

Rates of passage from Quebec or Portland, cabin, $50 to $80, according to steamer and accommodation; second cabin, $30. Steerage at lowest rates.

ROSES, The Very Best, at SLIGHT'S CITY NURSERIES.
407 YONGE.
**Permanent Exhibition of Manufactures.**

63, 65, 67, 69 Front Street West.

A special Exhibition Building located in the heart of the business portion of the city, is being erected for us, and is expected to be ready for occupation early this year. The structure will be a very handsome one, with a frontage of 92 feet on Front Street (nearly opposite the Queen's Hotel), by a depth of 100 feet, and is specially designed to answer the purposes for which it is intended.

Some of the advantages likely to accrue to manufacturers exhibiting may be briefly summed up as follows:

1. The Exhibition will be free to all, and open throughout the year.
2. It will afford all the advantages of a Toronto branch establishment at a very moderate cost.
3. Exhibits will be seen by large numbers of business men who would not be apt to visit a private branch office, unless on special business.
4. The Exhibition will be extensively advertised and made very attractive, and as almost every variety of machinery and manufactured goods will be on view, under the same roof, it will certainly become an important mercantile exchange.
5. Competent salesmen will be in charge for the purpose of explaining the merits of each exhibit to interested visitors.
6. Exhibitors can either appoint us selling agents, or have their own representatives in charge. In the former case, every endeavor will be made to establish a profitable trade.
7. Exhibitors can have printed on their office stationery, "When in Toronto call and see samples of our goods at Permanent Exhibition of Manufacturers." This may afford prospective purchasers an opportunity of personally inspecting goods, who might not otherwise visit outside towns for that purpose.
8. Machinery can be shown in motion, as shafting and power will be provided.
9. Office and inventory accommodation, and sanitary conveniences, will be provided for the convenience of exhibitors and their agents.
10. Telegraph Office, News Depot, etc., etc., will be in the building.
