PREFACE.

The publisher, in presenting his third annual edition of the Classified Business Directory of the City of Hamilton, believes that the book will supply a long-felt want, as the need of an accurate and reliable list of all the industries and businesses carried on in the second city in the Province has long been apparent. The compiler having lived here for the past twenty-two years, and intimately knowing almost every business and professional man in the city, has been enabled to do thorough justice to all without fear or favor.

The Directories of the Town of Dundas and Villages of Beamsville and Grimsby will be found very useful to the mercantile community.

For strangers this book will be found an accurate and reliable business guide. The publisher returns his thanks to the advertisers and subscribers who have so liberally supported him, and hopes that every year the "Ambitious City" will grow in prosperity and importance.

Henry Vernon,
Publisher and Compiler,

Hamilton.

HAMILTON, the second city of the Province of Ontario, is situated on the south shore of Hamilton (formerly Burlington) bay, the western extremity of Lake Ontario. It lies just east of the 80th degree of longitude, and just north of the 43rd parallel of latitude.

Hamilton occupies an alluvial plain lying between the bay and the escarpment which forms the outer rim of the lake basin. This escarpment—locally known as "the mountain"—is the height over which the Niagara plunges at the Falls. From its summit a magnificent view may be had. The city lies immediately below, the squares in the center as distinct as those of a chess-board, while in other parts the luxuriant maples with which the streets are lined almost hide the dwellings from sight. The broad blue waters of Lake Ontario stretch away to the eastern horizon. To the northward the view is closed in by a continuation or the height on which the observer stands. The plain is covered in all directions with fruitful farms and dotted with thriving villages. The spires of Toronto may be dimly discerned on the north side of the lake, forty miles away; and on a clear day the smoke of Niagara, at about the same distance, may sometimes be seen.

At the opening of the present century the ground on which Hamilton now stands was covered with forest. A dozen years later it was occupied by farmers, and gradually a hamlet grew up at the spot which is now the center of the city, but it was not until 1833 that a municipal organization was effected. In 1836, just fifty-six years ago, the inhabitants numbered 2,846, and the assessed value of property was less than $175,000. Ten years later the population was found to be nearly 7,000, and a city charter was obtained. The population at present is upwards of 50,000.

Hamilton is in direct railway communication with all parts of the province, while she has by the great lakes and rivers water communication from Chicago, Duluth and Sault Ste. Marie at the west to the Atlantic seaboard.

There are in Hamilton 9,951 houses, 4,975 of which are brick, 530 stone and 4,446 frame. The area of the city is 3,696 acres. There are ninety and a quarter miles of streets, forty miles of sewers, ninety and three-tenths miles of water mains and thirty-five and a half acres of public parks.

The city is represented by two members in the Dominion Parliament and by one in the Ontario Legislature. It has three daily newspapers. Its local affairs are managed by a City Council composed of a mayor and twenty-one aldermen. It is amply supplied with excellent water from Lake Ontario.

A police force of fifty men is found ample to preserve the peace; and a highly efficient fire department has been able to save the city from serious loss by fire. The streets are lighted by electric lamps. It is no exaggeration to say that in all material interests Hamilton is now more prosperous and its progress more rapid than at any former period.

No other Canadian city has won for itself the industrial celebrity that Hamilton has attained. The city is often called the Birmingham of Canada, and though comparison with the world's great workshop in the English midlands is presumptuous, it is not altogether unwarranted. A place, within the memory of living men transformed from the wilds of a forest, can necessarily in but few things be compared with Birmingham. In one point, however, such a comparison may not be unseemly. Hamilton resembles the larger and older hive of industry in her thrifty application of skill and capital to widely diversified industrial operations. This has been her distinguishing characteristic for at least a generation. Within that period manufacturing establishments on a scale and with equipments in keeping with the latest demands for cheap and efficient production, have successively sprung up within her limits. Her increasing workshops have steadily added to her population and enhanced her wealth. Scarcely an important branch of industry is left altogether unrepresented. A statement of the industrial progress of Hamilton as extracted from the census returns shows that the total capital invested in manufacturing industries in the ambitious city on April 6 last was $8,012,000, against $485,500 ten years ago. The number of employees has increased from 3,100 to 9,575, the total amount of wages paid last year was $3,203,500; the average for employee per annum being $335, as against $355 in Toronto and $331 in Montreal. The total value of the products in the year was $13,980,000, as against $8,210,000 in 1881. The value of the products per head of population has increased 25 per cent. in the ten years.

Her factories, equipped with modern machinery and the latest labor-saving devices to minimize the cost of production, maintain a daily output of innumerable articles of metal, wood and leather industries, of textile fabrics and of glassware, pottery, clothing, etc. The curing and packing of meats, and canning of fruits and vegetables are also carried on in accordance with advantageous methods peculiar to the western side of the Atlantic.

A careful perusal of the miscellaneous directory in this book will give the reader a better idea of the educational, municipal, social, religious and benevolent institutions, etc., than could be mentioned here. The classified directory also shows faithfully the professional, mercantile and manufacturing establishments of the city.

Hamilton is distant 40 miles from Toronto; St. Catharines, 31; London, 85; Detroit, 186; Kingston, 200; Montreal, 373; Quebec, 538.

HENRY J. HEALEY,
GENERAL INSURANCE AGENT,
30 HUGHSON ST. SOUTH,
HAMILTON, ONTARIO,

REPRESENTS

NORTH AMERICAN LIFE ASSURANCE CO.

A LEADING HOME COMPANY.

Issuing Policies on all improved plans. Ask for figures on its two latest plans:

COMPOUND INVESTMENT AND INVESTMENT ANNUITY POLICIES.

The particular features of these plans are not embodied in any other Policy of insurance offered the Canadian insurance public. No trouble to call and explain these contracts, which are simple, free from onerous conditions, and incontestable after three years.

THE NORTH AMERICAN LIFE offers security to Policy-holders not exceeded by any other company. It has a variety of plans adapted to meet the wants and conditions of all classes. All profits are distributed among its Policy-holders, and the Act of Incorporation expressly frees them from any liability other than the voluntary payment of premiums.

PAYS DEATH CLAIMS PROMPTLY.

The actual cash results already paid on investment Policies have been most satisfactory to the holders, exceeding in every case the present estimates in use by the Company.

Particulars as to premium rates and further information can be obtained on application to

WANZER LAMP and MANUFACTURING CO.
HAMILTON, ONT.

The Wanzer Lamp Requires No Chimneys. Ordinary Shades can be used if desired.

Water can be heated, Tea or Coffee made, Oysters Cooked, etc., in a few minutes while we enjoy the light.

What a Comfort to Read and Work by the Wanzer Lamp.

What a jolly time we are having, and Mama says there is no danger of blowing up with the Wanzer Lamp.

The Wanzer Lamp does not vitiate the air by imperfect combustion, and is most useful in the sick room and nursery.

THE WANZER LAMP—A large want filled. Light and Heat utilized.

What a number of steps I can save by this handy appliance in the sick room.

The Wanzer Lamp is just the thing for morning Toilet.

Send for circulars for Cooking Appliances with Wanzer Lamp, when a dinner for 6 or 8 persons can be cooked at a cost of less than 2 cents.
