OTTAWA OF TO-DAY

Ottawa's century of life is a stirring story of national expansion and development, of growing strength and increasing wealth. It is a story that thrills alike with the history made and with the promise of the future. One hundred years ago Ottawa, then known as Bytown, was just beginning to take its infant toddling steps on the pathway that has led it to greatness and fame. Ottawa, the Capital City of the Dominion of Canada, is the industrial and commercial metropolis of Eastern Ontario. It is a city that reflects in a thousand and one ways the achievements of the people of Canada. Its National development, coupled with its civic, commercial and financial development, marks it plainly as a worthy City for the Capital of Canada. In the variations of advantages which Ottawa possesses in the line of industrial, social, sight-seeing and recreative opportunities, Ottawa takes a proud and worthy position among all the capitals of the world.

Ottawa has advanced far since the days of a century ago, her progress since Confederation reads like a romance, but great though her past, Ottawa is just on the threshold of its development, unlike many of the cities of this Continent which have reached the apex of their progress; Ottawa on account of its natural advantages, industrial, social, financial and recreational, stands in a premier position with regard to the future and on account of it being the National Capital, feeling every pulse beat of the National Heart, it is great and will become greater, richer and grander as Canada realizes her destiny. No city on the continent, no capital in the world has before it a more promising and alluring future.

Ottawa has to-day a population of

135,154

inhabitants, which number is increasing at a rapid rate every year. It covers an area of 5,295 1/2 acres, or approximately ten square miles. Its assessed value of rateable property, which does not include the Parliament Buildings and Government Departmental Buildings, $101,345,326. Within the boundaries of the city there are fifty-eight miles of paved streets, 213 miles of paved walks, 184 miles of water mains, and 142 miles of sewers, and 47 miles of street railways, Government owned buildings valued at $21,158,190, the total taxable real estate in Ottawa for 1919 was $98,885,599.

Ottawa of Yesterday.

The significance of these figures is startling when one looks at the figures in the light of history.

The land upon which Ottawa originally stood comprised six lots, three lots of Concession C, and three lots of Concession D, the boundary line between them being Cumberland Street. The first of these, two lots extending north and south, from Maria Street as far as Ann Street, and east and west from Concession Street to the Rideau, were patented to Grace McQueen in 1801 by the Crown. Her family lived there until 1832 when they were sold for $5,500 to Colonel By. In 1802 Jacob Carman took out a patent for two lots similar in size from Popley's Bridge to the Rideau, between Ottawa Street and Cathcart Street on the north and Wellington Street and Rideau Street on the south, which included
Parliament Hill and Major's Hill Parks. This property changed hands for £10, and in 1823 was again taken possession of by the Crown at a price around £700. The remaining two lots between these two properties, one of which is now the business centre of Ottawa, was obtained by John Burrows who afterwards in 1826 sold it to Nicholas Sparks for a ridiculously low figure as compared with present day prices. The rest of the city proper, as we know it to-day, was patented to Lewis T. Besserer in 1828. The monetary value of these three properties in those days did not run to over $25,000. To-day they go into the tens of millions. The commercial advantages of the Ottawa, the Chaudiere, and neighborhood were perceived long before the white man's arrival by the Algonquin Indians. Here was the goal of yearly trading expeditions of Indian tribes who lived thousands of miles apart. The Ottawa and Chaudiere was the route along which the trade of the first inhabitants of Canada travelled before the French occupation and before Champlain's famous trip of 1615 up the Ottawa to Georgian Bay. Great annual fairs were held in this vicinity by the Indians. Here came the Indians from as far south as Virginia, the Hurons, and the Algonquins who not only came to trade but to worship at the Chaudiere Falls, which was considered a great shrine at which a propitiatory sacrifice should be offered. Father Broeboeuf, Father Daniels, Father Jouges, the great French missionaries to the Hurons, also passed here. Historic the spot, undying the glamor that the names of pioneers of Canada have left here.

Changing times have brought the English. The first Anglo-Saxon to explore this region came in the person of Philemon Wright in 1799. Hull was founded on the opposite side of the river by him and a lumbering district established. It was not till 1811 that Ira Honeywell cleared land and made the first home on this side of the river just above the Chaudiere. Here in 1811 was born the first white child, so this may be called the real beginning of Ottawa. Between 1811 and 1818 the Richmond Pioneers arrived, the soldiers of a famous old Peninsular War Regiment, with their wives and children; when the Richmond settlers arrived there were three settlers who may also be called the advance guard of the city, in what we know now as Lower Town.

Between 1818 and 1826 gradually new settlers arrived. This is the time when Ottawa may claim to really date its business, commercial and financial origin. In 1827 Lieutenant-Colonel By of the Royal Engineers arrived from England and pitched his tent on Nepean Point, from which he gazed around him upon an almost unbroken wilderness. The Imperial Government in 1814 decided that for the safety and good of British Canada that all of the trade of Canada should pass inland to the Ottawa, and 'twas then that the plans for the construction of the Rideau Canal from Kingston to the Ottawa were figured on. Col. By broke the first sod for this great Imperial military undertaking in the spring of 1827, and the building of the locks was immediately commenced and Sir John Franklin, the great Arctic explorer, laid the corner stone of the second lock from the Ottawa, August 1827. The canal took six years to construct and the cost was four million dollars. Thus Ottawa was given a trade line of communication with the outside world, and as if by a miracle, a busy line of industry here sprang into existence. By 1828 there were no less than fifteen general stores, eight shoemaker shops, four bakeries, two tailor shops, three jewellery stores, one butcher shop, three blacksmith shops, one chandler shop, tinsmith, and one harness shop. This was Commercial Ottawa's beginning. Business became brisk, laborers flocked in, Upper and Lower Town came into existence, and an era of prosperity dawned. All the trade between Upper and Lower Canada passed through Bytown, bringing wealth and prosperity.

Another boon came in 1837 when the first timber slides were constructed in Ottawa. By 1828 there were 150 houses in Ottawa located on the following streets: Wellington, Vittoria, Lyon, Kent, Sussex and Rideau Streets, and a few in Corktown, the settlement of the Irish immigrants which laid along the present canal from Birkett's warehouse to the subway on Elgin street.

By 1837 there were two small villages of Upper and Lower Town separated by a wooden spur of the hill. A lumbering centre, a lively busy place; with an abundance of intelligence and business enterprise, with 1,300 inhabitants, Bytown grew rapidly and
became of great importance and was incorporated as a town in 1847, having a population of 5,000 at that date. Much of its importance came about as a consequence of its being the distributing centre for the growing districts and lumbering areas of the upper Ottawa.

The first sawmill was erected at the Chaudiere in 1853, and others followed in rapid succession, bringing increased population and wealth to the town which by 1854, on December 18th, was incorporated as a city. The municipal councillors remembering the writings of Charlevoix in 1740, who called the great trader Indians of that date Outaway instead of Oudatawa from Charlevoix’s name gave the new city the name “Ottawa.” At the time of its incorporation Ottawa had a population of 7,500 inhabitants.

Ottawa's Coat of Arms and Motto.

Long before the name of Col. By was ever heard in this part of the world, two men strolled along the beach in Hull, one of them, the Earl of Dalhousie, said to his companion, "His Grace the Duke of Wellington has lately proposed a scheme of uniting the Grand River (Ottawa) with Lake Ontario. If such an event should happen, do not be surprised if one day you should see on yonder eminence (and pointing to Parliament Hill) the seat of the Government of the two Canadas."

This was in the summer of 1815. The prophecy has been fulfilled. Col. By also had the same dream. All the great people connected with the building of the great Capital here seemed to have an uncanny vision of the future of Ottawa. Even the great Duke himself dreamed of a vast interior city and a commercial hive of industry. Knowing Ottawa to-day it is inspiring to realize the tradition and history back behind her.

The incorporators of the City in 1854 seemed also to have the same faith for the Motto they adopted for the city was not only ennobling, but inspiring. "Advance." And "Advance" it has been, for to-day Ottawa is the Metropolis of United Canada.

Ottawa's Crest adopted at the same time also pointed distinctly to a distinguished future. The interpretation of the Crest is interesting and it also serves to explain to a great extent Ottawa's present proud estate in Canadian and world affairs.

The broad axe represents "The square timber trade."
The beehive represents "Industry."
The plough and sheaf of wheat represent "Plenty."
The locomotive represents "Transportation facilities by rail."
The rural scene and setting sun represent "A country blessed with sunshine, timber and game."
The falls represent "The Chaudiere Falls and water power facilities."
The figure of the woman on right of Crest "Justice."
The figure on the left, a man, represents "The dignity of labour."
The rose, shamrock and thistle represent "British Connections."

Ever since 1844 this Crest has served as the City's Hall mark. In itself this Crest, if once interpreted and understood, represents the best advertisement that could be given to Ottawa. The detail stands true and sound to-day and in studying same one cannot but admire the uncanny vision of the Scot, Mr. George Hay, who away back in 1844 designed it, and in so doing visioned the glorious Capital City of to-day.

In 1857, after serious and long deliberation, and much to the disapproval of other Canadian cities, the great Queen, Victoria the Good, chose Ottawa as the Capital of the
BIRDSEYE VIEW OF NEPEAN POINT AND OTTAWA RIVER.
United Canadas, which choice was ratified and confirmed by Parliament and the Departmental Buildings were commenced in 1857 and completed in 1865. The great King, Edward the Peacemaker, when Prince of Wales, on his tour through Canada, laid the corner-stone on September 1st, 1860.

Practically from this date the City commenced that phenomenal development which has since made it famous the world over.

The first session of Parliament was opened on June 8th, 1866, and during the session the grand project of Confederation was matured, and finally worked out.

There is the tale of romance of the olden times dating back to 1615, there is the story of the struggles and trials of the pioneers of 1800 and on to 1827, there are the annals of the River and Lumber Kings, and last, but not least, the thrill and the romance of the Empire Builders who brought a United Canada into existence, all wrapped around the name that has become the pride of Canada, “Ottawa,” Ottawa the beautiful, the Capital of our Country, Canada.

On the 1st of July, 1867, the birthday of the new Dominion was celebrated duly in Ottawa by the 18,700 inhabitants of that day who were proud to think that they were citizens of the Capital City of Canada.

Ottawa’s growth since Confederation has been sure and steady depending on no booms. An examination of the following table bears this fact out, taking ten year periods.

The story of Ottawa from 1867 down to the present date is the story of the growth of a great National Capital. When it is realized that the annual pay list of the Government to its servants who live in Ottawa is $12,000,000, and that this sum is paid out to 12,000 people who spend the most of it in Ottawa, an answer is given at once to the question—why is Ottawa always prosperous from a merchant’s standpoint.

**Water Power.**

From industrial and commercial standpoints, Ottawa to-day stands in the front rank. She offers a combination of greater advantages and economic facilities than any other city in the Dominion. Ottawa has the cheapest power and light in Canada, and the consumption of power is about 75,000 h.p. when required, and operated in the very heart of the city. Within fifty miles of Ottawa there is available 1,000,000 hydraulic horse power low water estimate. This is made up as follows:

Ottawa River, all tributaries above Ottawa including the Mississippi, Madawaska and Bonnechere rivers—589,330 h.p., Ottawa River and all tributaries below Ottawa, including the Gatineau River, Riviere du Lievre—269,683 h.p. In considering Ottawa’s future in that we are now in “the white coal age,” water power must be considered. When we realize that within fifty miles of Ottawa there is about 1,000,000 h.p. available, and consider that Niagara only gives a horse power of 400,000 the future of Ottawa industrially can be seen. Realize that within ten miles of the city hall 230,000 h.p. is available.

Ottawa, the city of cheap water power, and lots of it, offers special inducements to the investor and manufacturer, splendid industrial sites with trackage are available, and
cheap. Within the city limits with fixed assessments for a large number of years there are available sites awaiting occupancy at a nominal cost.

Ottawa offers industrial advantages as above, this is why Ottawa is probably the largest lumber centre in the world, with a normal average production of from 450 to 500 million feet of lumber per year.

Ottawa has the world’s largest industrial factories producing paper, cardboard, tents and awnings and cement.

VIEW OF ENTRANCE TO RIDEAU CANAL LOCKS.

In addition, from an industrial standpoint also Ottawa offers many distinct advantages.

Transportation by rail and water are ideal. There are nine steam railways entering
the city, eight water transport lines, and four express companies which connect with all the railroads in eastern and central parts of the United States.

The water lines operate via the Rideau Canal to the St. Lawrence and the Great Lakes, Montreal and the Atlantic seaboard.

Freight rates to the great markets of Western Canada are the same per class per cwt. as rates from Toronto, London, Hamilton, Windsor and other Ontario industrial centres, with the advantage of one-half to two days' quicker service from Ottawa to Western ports, by reason of direct haul without transhipments, as is necessary on consignments of freight from points not on the main line of the great trans-continental railway lines like Ottawa is. This point is vital for the manufacturer and investor and all the more so when it is realized that Ottawa on eastbound and export traffic has the advantage in both rates and time over all other Ontario and Western Canadian cities by reason of location and more direct lines and transportation facilities between this point, the Atlantic ports and the United States, and that in addition she has woodworking, papermaking, and for kindred industries raw materials available in the city and within easy access, and that Ottawa offers for any industry such as woollen, flour, furniture, steel, the cheapest haul of the raw products required of any city in Canada.

It is important to remember that as an industrial centre Ottawa stands pre-eminent in her wealth or opportunity. She has an abundance of cheap power, nearby sources of raw material, a plentitude of labour and good safe sound labour, excellent transportation facilities by water and rail with low freight rates, on national transcontinental routes.

A City of Beautiful Homes.

ONE OF OTTAWA’S BEAUTIFUL RESIDENTIAL STREETS.
It is a fortunate city that can speak with pride of its homes. The very life of a city physically and morally depends upon its homes. There are no slums in Ottawa. The Ottawa Electric Railway, which has no peer on this continent, has made rapid transit possible, therefore the residential portion of Ottawa no longer circles the business centre but instead has spread out southward, eastward, and westward, where spacious and homelike residences have sprung up. A city of homes, of comfortable homes, Ottawa essentially is, and coupled with a delightful vigorous healthy climate with the advantages and benefits of a great social, literary, educational and social atmosphere, Ottawa is an ideal place to raise a family in. This is just as true for the children of the laborer as for the children of the capitalist or manufacturer. There are twenty-four public schools, tuition free, and twenty-nine separate schools. In addition there is a Model and Normal school. Ottawa has one of the best equipped and manned Collegiate Institutes in Canada. The Ottawa University is one of the finest Catholic Institutions on the continent, its doors being open to all. There are many business colleges, ladies' colleges, convents and private schools. Ottawa is distinctly a progressive educational centre.

A Healthy City.

Wealth without health is of little value. Ottawa has not forgotten the importance of good sanitary arrangements. Ottawa has natural drainage facilities, and these have been taken full advantage of, nearly three millions of dollars have been spent in the building of sewers, of which there are 142 miles laid. The elevation of the townsite above sea level is 200 feet, which makes the climate healthy and invigorating. The temperature in July and August very seldom ever reaches 100 degrees. The neighboring Laurentian Hills
with their bracing air brings to Ottawans vigor and health and the heat of summer can be quickly overcome in the beautiful parks and playgrounds underneath abundant shade trees.

A Tourist Centre.

Nature has done much for Ottawa, but the civic and Federal authorities have worked hard to make Ottawa the prettiest capital in the world. The parks, the Government Driveway, and the Central Experimental Farm are the pride of every Ottawan. Ottawa has been happy in its selection of its public parks. The largest and most beautiful is Rockcliffe Park. It contains 185 acres, and is conceded by tourists to be one of the most beautiful parks in the world.

Strathcona and Major’s Hill Park are also the delight of the tourist, while reached by trolley are Britannia-on-the-Bay, and Aylmer Park on Lake Deschenes, where every type of water sport and life can be partaken of.

Steamer trips by the Ottawa to the Chats Falls, a lovely cataract and delightful fishing and camping spot, afford an inexpensive trip to the tourist.

ALONG THE DRIVEWAY TO EXPERIMENTAL FARM.

Motor trips down the Ottawa through a country of unparalleled beauty will never be forgotten.

Trout fishing in the lakes and streams of the Laurentian Hills, reached by excellent motor roads, give opportunities that delight the disciples of Isaac Walton.

Hunting deer and bear in these same hills in the fall gives another side of the Capital’s sport opportunities.
Motor boating, canoeing, steamboating up the Rideau Canal 'midst the glories of the Rideau Lakes, is a glorious summering offer to the tourist.

Miles of motor roads penetrating into sylvan glades, into mountain lakes and streams on both sides of the river, visiting the glory spots of the Upper Ottawa are attracting to Ottawa thousands of tourists every year.

One hundred and sixty-five miles away lies the wonders and glories of Algonquin Park, a great sport centre, and conceded to be one of the finest fishing places on the Continent.

Ottawa as a tourist centre offers a thousand and one glorious surprises for recreational sightseeing and sport opportunity.

Excellent motor roads and fine, rail services will bring, the tourist quickly to the wilderness where cooling breezes, fine fishing, swimming and boating, and a thousand and one beauty spots will make the summer speed all too quickly.

Ottawa is equipped with one of the finest hotels on the Continent, the Chateau Laurier, which caters especially to the summer tourist. Numerous other hotels, all of which rank as first-class, are also to be found in Ottawa, and which have the confidence of the public are the Russell, the Alexandra, the Cecil and the Windsor.

Great Convention City.

Ottawa is now known as the city which has the greatest number of conventions of any city in Canada. In fact Ottawa is now known the Continent over as "the Convention City" and "Tourist Centre."
LEFT, PARLIAMENTARY LIBRARY; RIGHT, COR. OF PARLIAMENTARY BUILDINGS.
Points to Visit in Ottawa.

It is the seat of the Federal Government, the main Parliament Buildings being situated on Parliament Hill. The new Parliament Buildings stand as the very apex of architectural beauty both from an exterior and interior viewpoint.
The Parliament Library is one of the largest and finest on the Continent.
The Victoria Museum at the lower end of Metcalfe Street gives an unrivalled display for the edification and instruction of all, a priceless and complete exhibition of the wealth, art and variety of Canada's unbounded and unlimited resources in every department. Here is to be found one of the finest mineral exhibits in the world, a Natural History Department affords the visitor an educative surprise, and true nature fossils, curious fossils of organic remains, and a vast variety of aboriginal curiosities as well as the glorious display of the Art Gallery afford the visitor many hours of pleasure and study.
The Archives also give the student an opportunity to peer into the past.
The Mint affords a few hours educational treat.

A RESIDENCE IN THE EXPERIMENTAL FARM.

The Experimental Farm with its wealth of beauty, its beautiful flowers and interesting agricultural studies is a delightful spot.
The Carnegie Library affords the students a delightful retreat.
A trip through the Booth and Eddy's mills is both educative and interesting.
A trolley trip around the city taking in Rockcliffe Park and Britannia is one never to be forgotten.
Ottawa's theatres are all high-class and offer to the visitor some hours of pleasant rest from sightseeing. They are the Russell, Family, Centre, Regent, Strand, Imperial and Flower.

In summer a visit to the Rideau Hall grounds is interesting. Ottawa offers every type of sport life. In summer lacrosse, tennis, golf (there are several excellent golf clubs), football and baseball, hunting, fishing, swimming and boating. In winter, skating, snowshoeing, tobogganing, skating, hockey and curling. The tourist can always find a ready
welcome at any of the clubs. Ottawans are famous the world over as a hospitable people. Remember Ottawa is not only a great summer resort but that she is also a great winter resort.

In a social way Ottawa is unique. The tourist visiting here with proper credentials can partake in an endless series of social functions and entertainments, balls, dances, luncheons, receptions and teas. A city of smiles and social life Ottawa indeed offers unique opportunities to the visitor.

Ottawa is located 115 miles northwest of Montreal, 256 miles northeast of Toronto, and 600 miles north of New York City, being in direct rail contact with all three cities.

Ottawa owns her own electric and waterworks system, has 20,000 houses, 84 public buildings, 24 public schools, one university, 67 churches, 17 theatres, 192 industries, 30 clubs, 24 hospitals and asylums, 20 Government buildings, 13 parks, 11,000 telephones in use, and over 100 insurance companies at work, everything that makes life worth while is to be found in Ottawa.

With the closing of the war and the readjustment period safely passed Ottawa has already shown that she is still true to her motto, "Advance." Great expansion in trade and industry is already shown. The past decade shows vast advancement. As the city that acts responsive to the heart beat of the nation, Ottawa with its boundless resources, scenic as well as industrial, will no doubt in the next decade double in population and quadruple in the values of its assessable property. In the centre of the greatest water power area on the continent, Ottawa with its abundant and cheap power is bound to attract new industries and greater wealth. With the same indefatigable energy as was shown by the pioneers of Bytown, by the fathers of the new city, Ottawa, the Beautiful, present sons and daughters of Ottawa and their children will make Ottawa one of the greatest, richest and noblest Capitals in the world.

The crest of Ottawa is prophetic as we have already seen. "Advance," "Advance" the slogan to a greater Ottawa.
Ottawa Car Lines With Key to Same

1. **BANK.**—Red Diamond Disc (all red lights at night). From the Protestant Hospital corner of Rideau and Charlotte via Charlotte, Laurier, Nicholas, Rideau, Sparks, Bank, Sunnyside, Seneca, Grove (Ottawa South). Returns via Bank, Queen, Elgin, Sparks and Rideau.

2. **BANK- ST. PATRICK.**—Red Diamond Disc with Green Centre (red light at night). St. Patrick, Street Bridge Loop, via St. Patrick, Dalhousie, Rideau, Sparks, Bank, around Exhibition Grounds Loop and return. This line operates during the rush hours only, 6 to 9 a.m., 12 to 2 p.m., 5 to 8 p.m.

3. **BRITANNIA.**—White Maltese Cross with Red Centre (red and white lights at night). From Protestant Hospital via Rideau, Sparks, Bank, Somerset, Wellington, Holland Ave and Britannia Line to Britannia Park on Lake Deschenes. Returns via Britannia Line, Holland Ave., Wellington, Somerset, Bank, Queen, Elgin, Sparks, Rideau, Nicholas, Laurier and Charlotte. Subject to change in winter months. To Holland Ave. only in winter months. Britannia service from Holland Ave. during winter.

4. **SOMERSET.**—White Maltese Cross with Green Ball (red and white lights at night). Same route as Britannia in the city. It is not operated on the Britannia line west of Holland Ave.

5. **MCKELLAR.**—White Maltese Cross with Red Centre (red and white lights at night). Same route as above but does not operate west of McKellar Townsite on the Britannia line. Winter and extra service only.

6. **PRESTON- SUSSEX.**—Green Square with White Ball (all green lights at night). From corner of John and Alexander in New Edinburgh, via Sussex, Rideau, Sparks, Bank, Wellington, Queen West, Broad, Wellington, Preston around loop and return. Operated during rush hours only 6 to 9 a.m., 12 to 2 p.m., 5 to 8 p.m.

7. **GLADSTONE- ELGIN.**—Green Triangle with Red Ball (red and light blue lights at night). Elgin Street loop via Elgin, Sparks, Bank, Gladstone and Bell to Powell Ave. Returns by same streets.

8. **PRESTON- ROCKCLIFFE.**—Green Square Disc (all green lights at night). From Cloverdale Rd at east end of Rockcliffe Park via Rockcliffe Park line, Princess Ave., Sussex, Rideau, Sparks, Bank, Albert, Wellington, Preston around loop and returns by same route.

9. **EXPERIMENTAL FARM.**—Between Britannia Junction via Holland Ave. to Government Experimental Farm.

10. **HULL- ST. PATRICK.**—Green Square with White Cross (green and white lights at night). From corner of Sussex and Alexander via Alexander, Crichton, St. Patrick, Dalhousie, Rideau, Sparks, Bank, Wellington, Queen West, Booth to Hull and returns by same streets.

11. **RIFLE RANGE.**—Between Cloverdale Rd. and Rockcliffe Rifle Range.
Hull Electric Railway Company

12. MAIN LINE.—From Ottawa Interprovincial Bridge, Laurier Ave., Main St., Hull, thence to Queen’s Park, Aylmer.

14. BELT LINE NORTH.—From Interprovincial Bridge, Laurier Ave., Reboul, Maisonneuve, Levis, St. Hyacinthe, Du Pont, Main, Hotel-de-Ville, Laurier Ave. to Interprovincial Bridge, Green Disc.

15. BELT LINE SOUTH.—Ottawa Interprovincial Bridge, Laurier Ave., Hotel-de-Ville, Main, Du Pont, Hyacinthe, Levis, Maisonneuve, Reboul, Laurier Ave. to Interprovincial Bridge, Red Square.

OTTAWA, ONT.

—18—
STREET GUIDE
City of Ottawa

The names of all the city streets are printed in bold face type, followed immediately by a letter and number in brackets. These latter refer to the location of the street on the city map.

Street numbers alternate from one side of the street to the other.

When no numbers are given at cross streets there are no numbered houses or buildings between it and the nearest numbered cross street.

In connection with every street the car lines which run on it or on the nearest cross street are given by numbers, the figure or figures given designating the particular line or lines, such figures referring to the list of car lines on page 17. If there is no car line on the street or cross street that on the nearest street is given.

Traffic Regulations

The Board of Commissioners of Police for the City of Ottawa enacts as follows:

DEFINITIONS.

1. The word "vehicle," whenever used in this By-law shall include every description of wagon, buggy, cart, sleigh, bicycle, tricycle, motor cycle, automobile, equine, led horses and every description of conveyance supported by either wheels or runners, except street cars and baby carriages.

2. The word "driver" shall include the person having charge of a vehicle, the rider and the driver of a horse, the rider of wheels and the operator of a motor vehicle, but shall not include the person in charge of a street car.

3. The words "street intersection" shall include that portion of any street which lies immediately opposite and adjoining the terminal portion of another street.

4. For the purpose of keeping order and preventing any collision or obstruction of traffic, all Police Constables shall have authority, and it shall be their duty to direct and regulate traffic at street intersections and at other frequented portions of the streets on all occasions when the streets are thronged or liable to obstruction in accordance with the following regulations:

STREET INTERSECTIONS.

5. All vehicles in turning from one street into another to the right shall turn as near the right hand curb as practiceable.

6. All vehicles in turning from one street into another to the left shall turn around the centre of the intersection of the two streets.

7. Every driver shall, before turning at a street intersection, give a signal by raising his whip or hand in such manner as to indicate the direction in which the turn is to be made.

8. Unless for the purpose of allowing another vehicle or pedestrian to cross its path, or in obedience to a constable directing the traffic, no vehicle shall stop at or obstruct a street intersection, or stop in such manner as to obstruct any street crossing for pedestrians.

9. All vehicles, while approaching and while passing street intersections and crossings for pedestrians, shall reduce their rate of speed to what is safe and proper under the conditions then obtaining, and shall not pass any such street intersection or crossing at a greater speed than five (5) miles per hour.

KEEPING TO THE RIGHT, STANDING AT CURB.

10. All vehicles shall keep close to the right hand curb.

11. A vehicle waiting at the curb shall promptly give place to a vehicle about to take on or let off passengers.

BACKING, SLOWING UP, OVERTAKING STREET CARS.

12. No driver shall back up his vehicle or turn about, or attempt to turn about in any street, if by so doing he obstructs or interferes with traffic.
13. Every driver, before slowing up or stopping, shall give a signal to those behind him by raising his hand or whip vertically.

14. All vehicles shall stop before meeting or overtaking a street car which is stationary for the purpose of taking on or discharging passengers and shall not pass such car until the passengers shall have got on or off and shall have reached the sidewalk in safety.

**DRIVER MUST HAVE CLEAR VIEW FROM HIS SEAT.**

15. No one shall drive a vehicle which is so covered in or constructed as to prevent the driver from having a sufficient view from his seat of the traffic following and at the sides of such a vehicle.

**AGE OF DRIVER.**

16. No person under the age of sixteen (16) years shall drive a numbered, licensed or business vehicle unless he shall have first procured a permit, in writing, from the Chief Constable.

**AUTHORITY OF CONSTABLES.**

17. Vehicles shall stop at all times when signalled to do so by a Constable regulating the traffic. One blast of police whistle indicates that North and South traffic must stop and that East and West traffic may proceed, two blasts that East and West traffic must stop and that North and South traffic may proceed.

18. All drivers must at all times comply with any direction given by voice, hand or whistle by a Constable regulating the traffic as to stopping, starting, approaching or departing, the manner of taking up or setting down passengers, or of loading or unloading goods.

**PENALTIES.**

19. Any person convicted of a breach of this By-law shall forfeit and pay, at the discretion of the convicting magistrate, a penalty not exceeding the sum of Fifty Dollars ($50.00) (exclusive of costs), for each offence, and in default of payment of the said penalty and costs forthwith, the said penalty and costs, or costs only, may be levied by distress and sale of the goods and chattels of the offender, and in case of there being no distress found, out of which such penalty can be levied, the convicting magistrate may commit the offender to the common gaol of the County of Carleton, with or without hard labor, for any period not exceeding six (6) calendar months, unless the said penalty or costs (if any), including the costs of the said distress and of the committal and conveyance of the offender to the said gaol, are sooner paid.
Motoring Regulations

Consideration for the convenience and safety of others, forms the basis of all reasonable use of the public highways.

Do not drive faster than the following speeds:

- Within a city, town or village ............... 20 miles per hour
- At street intersections or curves ............. 10 " "
- In the open country .......................... 25 " "
- At cross roads or curves ........................ 12½ " "

Drive carefully at street intersections, particularly when entering a main thoroughfare. The great majority of accidents happen at street intersections.

At street intersections, a motor car approaching from your right hand side has the right of way.

In the presence of danger, there is no right-of-way. It is your duty to prevent accident under any circumstances.

Reckless driving is always illegal, no matter what the speed or technical right-of-way.

The majority of fast drivers have nothing to do when they get there. They are a menace to themselves, to those whom they pass, and a nuisance to people who reside along the road.

When you meet a vehicle, pass on the right; when you overtake one, pass on the left.

Do not "cut in." When you overtake a vehicle, and another is approaching, custom and safety give the right-of-way to the approaching vehicle.

Do not change speed or direction suddenly. Indicate your intention by holding your hand up if you wish to stop, and to the side if you are going to turn. There is usually a car behind you.

Do not drive with glaring headlights.

In case of accident or collision of any kind, stop, and give your name and address in writing to the person concerned.

When passing workmen employed on a road under construction or repair, drive slowly.

Pedestrians who have started to cross a street at a reasonable distance from an approaching motor car, have the right to do so at the pace of an ordinary walk, and the motorist has no right to compel pedestrians to rush or run for safety by the insolent blowing of the horn.

Slacken speed when approaching pedestrians, blow the horn if thought necessary to warn them, but permit them to cross the street in safety at a reasonable pace. Remember there are old people, invalids and children.

Drive slowly and sound the horn when children are playing in the street. A child is not responsible under the law—you are. An accident is commonly considered of the unavoidable class when a person steps thoughtlessly from the curb in front of a motor car, and all drivers of motor cars are liable to the great misfortune of being concerned in the death, or injury, of a fellow-being from this cause. But the alarming number
of accidents to children in this way indicates that drivers of motor cars are not sufficiently careful on streets where children are playing. When children are playing in the street, drive with extreme care and sound the horn.

The foregoing rules for motorists do not excuse pedestrians who fail to look before stepping from the curb or attempting to cross the street, or who inconsiderately and unnecessarily stroll or stand still in front of a car, compelling the motorist to jamb the brakes and shift gears. The pedestrian should look and have consideration for the convenience of the approaching motorist, as well as for his own safety.

Unnecessary noise or the use of the "cut-out" is illegal and objectionable.

If you are a licensed driver or the owner of a registered car, and change your address, notify the Department of Public Highways immediately.

When you sell your car, notify the Department of Public Highways immediately of the transfer, giving the name and address of the purchaser, and the license number of the car, using the form attached to your permit card.

When you buy a car which is registered, procure from the previous owner the permit card and notify the Department of Public Highways immediately, giving your name and address, and the license number of the car, the serial and engine numbers, the previous owner's name, and enclose the fee of $1.00.

When you buy or sell a car which is registered, the number plates must remain with the car.

Go to the nearest examiner and pass the prescribed examination for drivers of motor cars, obtaining a non-professional certificate. Don't wait till after the accident to obtain this evidence of competency.

If you drive for "hire, pay or gain," it is illegal to do so without passing the prescribed examination and obtaining a Provincial license.

It is illegal to employ a chauffeur who has not a driver's license, and who is not registered for the year. See that every driver in your employ wears the badge.

The foregoing paragraphs are merely a free interpretation of certain portions of the Ontario traffic laws, regulations and accepted rules of the road, and are not to be understood as verbally statutory. Copies of the Motor Vehicles Act may be obtained by applying to the Department of Public Highways, Parliament Buildings, Toronto.
Public Carriage Tariff

ONE HORSE CAB.—20 minutes, 1 or 2 passengers, 50c; 3 or 4 passengers, 75c. 40 minutes, 1 or 2 passengers, 75c.; 3 or 4 passengers, $1.00. 60 minutes, 1 or 2 passengers, $1.00; 3 or 4 passengers, $1.00. Each subsequent 20 minutes after first hour, 30c.; each additional passenger in excess of four, per hour, 30c.

TWO HORSE CAB.—20 minutes, 1 or 2 passengers, 50c.; 3 or 4 passengers, 75c. 40 minutes, 1 or 2 passengers, 75c.; 3 or 4 passengers, $1.00. 60 minutes, 1 or 2 passengers, $1.25; 3 or 4 passengers, $1.25. Each subsequent 20 minutes, 35c.; each additional passenger in excess of four, per hour, 30c.

TAXI-CABS AND AUTOMOBILES.—15 minutes or under, 1 or 2 passengers, 75c.; 3 or 4 passengers, $1.00. Each subsequent 15 minutes, 1 or 2 passengers, 50c.; 3 or 4 passengers, $1.00. First continuous hour, 1 or 2 passengers, $3.00; 3 or 4 passengers, $3.00. Each subsequent 15 minutes, 1 or 2 passengers, 50c.; 3 or 4 passengers, 50c.

OMNIBUSES.—Hotel omnibus to any railway station or vice versa, each passenger, 25c.; any other omnibus from one place to another within city, each passenger, 5c.; to any place not more than three miles outside city limits, each passenger, 10c.

TALLY-HO COACHES.—For one hour or less, each passenger, $1.00; every subsequent hour, each passenger, 50c.

Each passenger can take one trunk and other baggage to a reasonable extent, free of charge.

The charges after 12 midnight to 7 a.m., shall be one-half more than the aforesaid tariff.

Children under 12 years, in charge of an adult, shall not be charged for as additional passengers in any public carriage.
It is always safe to remit by Dominion Express Money Orders.
